PROFESSIONAL SUMMARY

Motivated Computer Science graduate with a strong foundation in Data Science and Machine Learning. Currently completing a structured 90-days DS/ML course spanning mathematical foundations through deep learning with TensorFlow/Keras. Experienced in building ML models from scratch (NumPy), data analysis, OOP-based Python systems, and Kaggle-based problem solving.

PROJECTS

IMDB Review Sentiment Analysis | Python, NumPy, Pandas, NLTK, Gensim Word2Vec, Scikit-learn, SVM, Streamlit

- Implemented an NLP-based IMDB Sentiment Analysis model using Word2Vec feature extraction and Support Vector Machine (SVM) classification, achieving automated sentiment prediction for movie reviews.

90-Days DS/ML Course Implementation | Python, Pandas, NumPy, NLTK, Gensim Word2Vec, Scikit-learn, SVM, Joblib, TensorFlow/Keras, Jupyter

- Built daily ML/DL projects spanning regression, classification, neural networks, CNNs, and NLP — all implemented from scratch and with scikit-learn.

Medical Professional Assistant Chat-bot | Python, Streamlit, Langchain, Pyrebase4, Openai

- Designed as a Streamlit-based AI medical chatbot that uses GPT-3.5 via LangChain with Firebase authentication and SQLite for storing user accounts and chat history.

PDF to Audio Book Converter | Python, Streamlit, Pypdf, Gtts

- This application is designed as a Streamlit-based PDF-to-audio converter that extracts text from PDF files and converts it into an MP3 audiobook using gTTS.

EXPERIENCE

Data Science Learner

2026 – Present

Skill Shikshya, Kathmandu, Nepal

- Enrolled in a structured 90-days DS/ML program covering Python, statistics, ML algorithms, and deep learning.
- Implemented machine learning models from scratch using NumPy, debugging binary cross-entropy loss and logistic regression.
- Analyzed datasets including Advertising, Ames Housing, and others using Pandas, Matplotlib, and Seaborn.
- Built end-to-end Jupyter Notebook pipelines covering data cleaning, EDA, model training, and evaluation.

TECHNICAL SKILLS

Languages: Python

Libraries: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, TensorFlow, Keras

Tools: Jupyter Notebook, VS Code, Git, GitHub

ML / DL: Regression, Classification, Clustering, Neural Networks, CNNs, NLP

Databases: MySQL, SQLite

Soft Skills: Problem Solving, Analytical Thinking, Self-Learning, Team Collaboration

EDUCATION

BSc CSIT

2021 – 2025

Mid-West University, Surkhet CGPA: 3.55

CERTIFICATIONS & ONLINE COURSES

- Diploma in Data Science & ML Course (Python/Jupyter)** – Skill Shikshya
- Kaggle Micro-Courses:** Intro to Programming, Python, Intro to Machine Learning, Pandas, Data Cleaning, Data Visualization, Intermediate Machine Learning.
